

STANLEY® FORGED BOLT CUTTER

- Cuts steel up to 1/4" in diameter with a jaw opening of 1/2".
- Forged chrome molybdenum steel cutting blades for strength and durability.
- 3-point pivot mechanism allows for cutting tough materials.
- Durable forged handles provide strength and control.
- Slip-resistant rubber handles provide grip and comfort.
- Meets or exceeds International GGG standards.

Product #	Size	Weight
14-376	18-1/4 in (464 mm)	3.93 lbs (1.78 kg)

STANLEY® WIRE STRIPPER

- Cuts up to five sizes of bolts.
- Oil-resistant dipped handle allows for a comfortable grip.
- Meets ANSI specifications.
- Rust resistant finish.

Product #	Cutting Capacity	Crimping Capacity	Length
84-199	10 to 26 gauge stranded 8 to 22 gauge solid wire	10 to 26 gauge insulated terminals 10 to 22 gauge non-insulated terminals	8-7/16 in (215 mm)

STANLEY® WIRE STRIPPER

- Adjustable slide stop and hole designed for bending and looping wire.
- Oil-resistant dipped handle allows for a comfortable grip.
- Meets ANSI specifications.

Product #	Cutting Capacity	Length
84-213	10 to 26 gauge solid wire	5-1/8 in (130 mm)

STANLEY® MAXSTEEL® MULTI-ANGLE BASE VISE

- Infinite and lockable positioning achieved with swivel-ball design.
- Easily attached to most work surfaces with integral screw clamp.
- Durable cast-aluminum and steel construction.
- Removable jaw pads help protect surfaces from marring and damage.

Product #	Jaw Width
83-069M	2-1/2 in (64 mm)
